HAPPY PLACE

ATV

VERTICAL

FLOATER

HAPPY PLACE

The most accessible board in the line, the Happy Place boasts a combo of camber between the feet and rocker at the tips, which delivers a ride that's both playful and tuned-in.

HAPPY PLACE

UPSIDE DOWN

It's a board that encourages progression and provides an everyday workhorse for beginner to intermediate riders, while you'll also find Gigi ripping the Happy Place in the park.

GiGi's brainchild and cornerstone of the Slash line.**

ATV

CLEAR VISION

This cambered directional twin is built to ride the whole mountain from park to pow to piste. Its new 3D subtly injected into tip and tail allow for mellower movement and increased waist width eliminates toe and heel drag.

The Slash Vertical is the evolution of our Straight Snowboard, complete with 3D in its nose for helping to stick steep & deep landings.

Vertical
VERTICAL
S X CA

VERTICAL

RIDE FREE

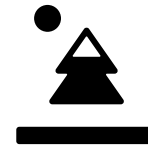

Directional camber, 3D nose scoop, 6/10 on the stiffness scale. Each of these elements are indicated in the Blank board's handy sales tool graphics, making the life of shop staff easier. And looking at the shape of the Vertical Blank, you'll see it's designed to effortlessly glide through deep snow, its 3D lift hoisting it atop powder like the hull of a boat through crashing waves.

Flonter

A pocket rocket that'll gun you through powder like the deadliest of weapons thanks to its flat camber profile, lifted nosed and tapered swallow tail.

FLOATER

DROP IN

A singular sidecut makes it a carving demon on pistes, but rally this into the deep stuff and you'll see why we called it the floater.

THUNDER

SLASH × THUMBS #02

Happy Place Camber Edition

Thumbs returns with his second Slash collab, presenting the Slash x Thumbs #02 Happy Place Camber Edition. The UK-based illustrator grew up on the floors of a London snowboard shop, owned by his parents. So he's a snowboarder through and through, and we love how loud his graphics are.

A cambered true twin, the Happy Place Camber Edition is for the shredder who rides the Happy Place, but is looking to take their riding to the next level. A freestyle oriented board, that will handle itself impeccably across the whole mountain.

TOP

BASE

**“Have you ever heard the term —
“ride it like you stole it?”**

That’s the feeling I wanted give the rider when I was designing this graphic. Have fun, stay loose and don’t take things too seriously. That’s the method I use for my art and I think that’s synonymous with snowboarding.”

SPLASH

ALL ABOARD

A soft and simple flex combined with twin shape makes the Splash a kids best friend when starting out. Rocketed tip and tail reduces the fear of edge catching and its mid-sidecut Traction Bump provides solid grip in icy conditions and the iconic Slash kick stand helps kids stand apart.
